

The World is Waiting

Str. 1

People tell me life is grey working days filled with trouble
feeding me pills that make me feel like I'm living in a bubble
Trapped in a cage of security
Hoping music finds a way to me

Bridge

Cause there is promise in the air
and it's playing a different song
living in a sky of music
and tender love all night long

Ref.:

Can't you see the world waiting for me, listen to me, set me free, yeah
Yes I know the world is waiting reassure me, you can make me fly

Str 2

It's understood if I want to fly they don't love me no more
wondering why they never smile don't they score their goal?
Trapped in a cage of security
Hoping music finds a way to me

Bridge

And there's a promise in the air
and it's playing a different song
living in a sky of music
and tender love all night long

Ref

Can't you see the world waiting for me, listen to me, set me free, yeah
Yes I know the world is waiting reassure me you can make me fly

Yes, I know the world is waiting, listen to me, set me free, ye
My hurting wings need to spread make me fly, to sky

Bridge

And there's a promise in the air
and it's playing a different song
lyrics in a sky of music
and tender love all night long

Can't you see the world waiting for me, listen to me, set me free, yeah
Yes I know the world is waiting reassure me, you can make me fly

Yes, I know the world is waiting, listen to me, set me free
My hurting wings need to spread make me fly, to the sky
